**BATTERSEA POWER STATION  
BRITISH ELECTRICAL AUTHORITY**

## POWERING BUCKINGHAM PALACE

It was a tale of two halves.

In 1929 The London Power Company broke earth and began building this colossal beacon of modernity.

Part one, Power Station A, started to generate electricity for London just seven years later.

Then, following a short pause during World War Two, building got back underway.

Today, 1955, the electrical supply has been nationalised and we, the British Electrical Authority welcome you, the very best and brightest engineers, to Control Room B.

Electricifying London with  
203 MEGAWATTS  
and keeping the lights on!
